FOREWORD

The main purpose of the Directory is to provide university graduates and placement officers with information on employment opportunities in Canada.

This publication is also distributed to officers of the Department of Manpower and Immigration serving overseas.

The Career Guidance Material Division produces other publications relating to post-secondary education.

These include:

Directory of Employers—

 New Community College Graduates

Career Outlook

Supply and Demand—

 New University and Community

 College Graduates

Requirements and Salaries—

 University and Community

 College Graduates

Any comments or suggestions you would like to make regarding this publication may be sent to:

Graduate Requirements Section
Career Guidance Material Division,
Department of Manpower and Immigration,
Ottawa K1A-0J9 Ontario

HOW TO USE THIS DIRECTORY

This Directory has three main sections: a narrative, a series of cross-indexes as a guide to the list of employers, and an alphabetically arranged listing of Canadian employers. Each entry in the alphabetical listing gives the name of the employer, the address, the name of the officer responsible for recruiting degree-level staff, and a brief description of the employer. As far as possible, a standard format has been used for all employer descriptions. Each profile contains three main headings apart from the employer's name and address:

"Activity," "Requirements," and "General Information." "Activity" describes what the employer does, "Requirements" lists the areas of study and degree levels of potential applicants, and "General Information" contains other relevant information. As far as possible, the only abbreviations used are "B," "B-P," "B-H," "M," "D," and "S," meaning Bachelor's, Bachelor's-Pass, Bachelor's-Honours, Master's, Doctoral degrees, and summer employment, respectively. However, a few standard phrases that have been used throughout the Directory may require clarification.

Where "summer employment" is mentioned, it refers only to employment in work related to a discipline of study. The employer may hire vacationing students to work in other capacities, but this cannot be determined from information given in the Directory listing. References to an employer's language requirements do not refer to an applicant's native tongue. "Requires French-speaking personnel" or "Requires English-speaking personnel" neither means nor implies that an applicant's native language must be either French or English.

The listing of employers is cross-indexed in three ways:

- 1) by fields of study and degree levels required;
- 2) by type of employer; and
- 3) by city and province.

If you know the name of the employer to whom you wish to apply, simply look up his listing in the alphabetical section. However, if you are interested in any employer who might hire graduates from your area of study, or an employer in a particular line of work, or an employer located in a specific city and province, then the cross-index may be consulted. The layout of these cross-indexes is shown in the table of contents on page ii.

I am pleased to send my congratulations and best wishes to you, the class of 1974, as you prepare to move from university life to the first stage of your employment career.

It is essential in our complex society that people have job satisfaction which will help them to preserve their integrity as individuals and to utilize their qualifications to the fullest extent. This Directory, which lists many of the larger employers of university graduates, is designed to assist you in planning your initial employment.

As you take this next important step in your life, I hope it will lead to a rewarding career and contribute to further development of our country.

A handwritten signature in black ink, appearing to read "Andras", with a stylized, flowing script.

ROBERT ANDRAS

OTTAWA
1973

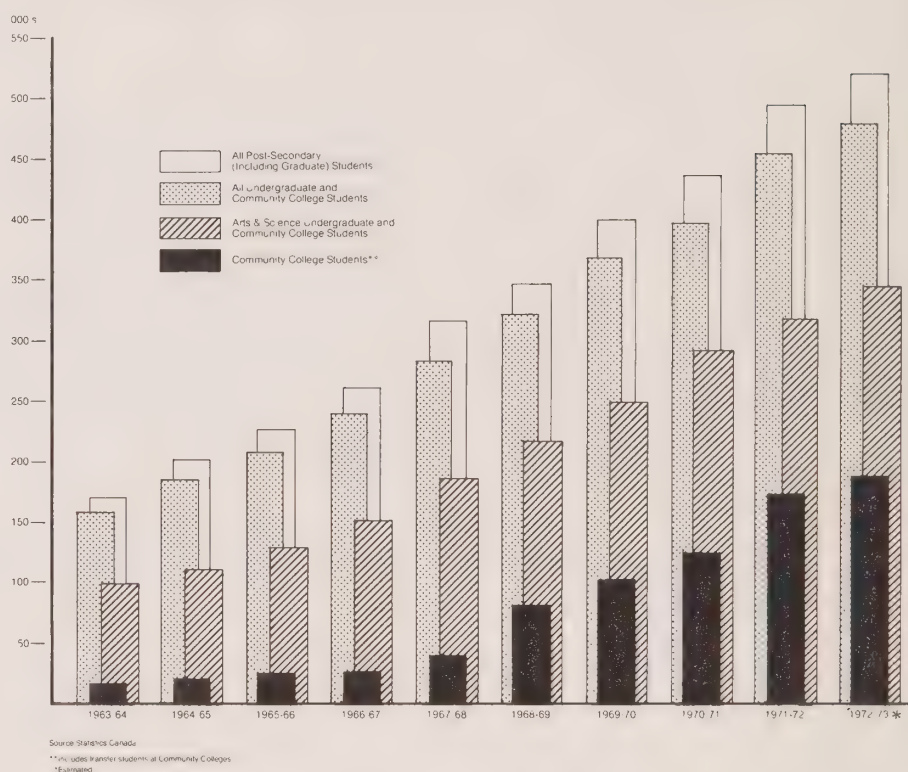

INTRODUCTION

The major part of this publication consists of employer profiles that give a description of the business or activity of employers and the type of graduates they require by degree level.

Indexes and cross-references are provided to facilitate easy usage of the information that is being supplied on employers and employment opportunities. In addition, "How to use this Directory" appears on page ii.

The chart illustrates enrolments at Canadian institutions of higher education for the academic years 1963-64 to 1972-73. The total increase between the 1971-72 and 1972-73 academic years is estimated to be 26,200 or 5.3 per cent. University students represent 330,250 or 63.8 per cent and community college students number 187,610 or 36.2 per cent of the total enrolment. It is of interest to note that enrolments at community colleges experienced only a slight annual increase up to the 1966-67 academic year. However, since then community college enrolments have experienced a substantially higher increase than the university enrolments for the same period due to the integration of certain other post-secondary institutions with some community colleges. This is particularly the situation in the province of Quebec, where a large number of the students in the CEGEP system are actually university transfer students and may continue university work following graduation from a CEGEP.

Figure 1
Enrolment at Canadian Universities
and Community Colleges: 1963-64 to 1972-73*

SCHOLARSHIPS, BURSARIES, AND LOANS

The financial burden involved in attending university is heavy and is becoming heavier every year. However, funds are available from a number of sources to lighten the load, although government loan plans provide the main share. Many universities, agencies, interested organizations, and individuals offer scholarships, bursaries, and loans to help support university students.

A Statistics Canada publication, "Awards for Graduate Study and Research," lists awards that are available to those undertaking graduate studies. As many of these awards are made to more than one person, the actual number of individual awards is much higher than might appear at first glance. As well, many of the organizations making these awards make similar funds available to undergraduates.

Bursaries are available from many sources, but probably the main source is the universities themselves. All, or nearly all, Canadian universities have limited funds available to provide grants to needy students, as do some service clubs and other organizations.

In addition to these sources, most of which provide non-repayable funds, other financial assistance is available to university students. The university usually has a limited amount of funds set aside for emergency, short-term loans (which are, in many cases, interest-free).

The Canada Student Loan Plan, administered by the provinces, guarantees loans to eligible students and pays the interest on them until the student has completed his studies. As well as assuring an adequate source of money, this plan allows students a favourable rate of interest. Information regarding any of the above can be obtained from the financial awards officer of any university.

Brantford, Ontario.

Activity

Atlas manufactures food and industrial grade polyols and surfactants in Brantford; and markets these, and activates carbon, and corrosion resistant polyester resins in Brantford, Montreal and Vancouver.

Requirements

Engineering: Chemical (B)
Chemistry and Biochemistry (B)

General Information

Recruits as necessary. Recruiting literature is available. Personnel must speak English; French is necessary in Quebec. Employment is offered at Brantford, Toronto, Ontario, and at Montreal, Quebec.

ATOMIC ENERGY OF CANADA LIMITED

Mr. M.F. Dubras, Co-ordinator, Salary Administration and Manpower,
275 Slater Street,
Ottawa, Ontario. K1A 0S4
(613) 237-3270

Mr. M. D. Bilz, Employment Section,
Chalk River Nuclear Laboratories,
Chalk River, Ontario.

Mr. T.R. Kirkham, Employment Supervisor,
Whiteshell Nuclear Research Establishment,
Pinawa, Manitoba.

Activity

Atomic Energy of Canada Limited (AECL), a federal Crown Company, is responsible for research into development of peaceful uses of atomic energy, specifically the development of nuclear power systems that will meet near- and long-term Canadian needs for low cost energy and the extension and improvement of the uses of radiation and radioisotopes.

Requirements

Biology, Chemistry, Computer Sciences,
Mathematics and Physics (B-P-H,M,D) (S)
Commerce and Business Administration and
Library Science (B,M)
Engineering: Chemical, Electrical, Mechanical,
Metallurgical and Physics (B,M,D) (S)

General Information

Recruits year-round. Recruiting literature is available. Employment is offered at all following sites: Chalk River Nuclear Laboratories, Chalk River, Ontario; Commercial Products, Ottawa, Ontario; Power Projects, Sheridan Park, Ontario and Whiteshell Nuclear Research Establishment, Pinawa, Manitoba and Glace Bay Heavy Water Plant, Glace Bay, Nova Scotia. AECL has a total staff of about 4580 of whom approximately 1030 are professional scientists, engineers, and administrators. English-speaking and bilingual personnel are required.

THE AUSTIN COMPANY LIMITED

Mr. M.W. Leobold, Chief Engineer,
555 Burnhamthorpe Road,
Etobicoke, Ontario.
(416) 621-1440

Activity

The Austin Company Limited is engaged in engineering and architecture in all branches, starting with reports and studies, through complete drawings, specifications, estimating and purchasing. Austin Construction Division builds most of the projects engineered by the company, although some purely consulting engineering is carried out. The staff includes members of all branches of engineering as well as architects. Engineering engagements also include field inspection, sales assistance and direct client contact on all projects.

Requirements

Architecture (B,M)
Engineering: Civil, Electrical and Mechanical (B,M)

General Information

Recruits as necessary. Recruiting literature is available. Personnel must speak English. The Company would also consider undergraduates.

AYERST MCKENNA & HARRISON LIMITED

Mr. Walter J. Scott, Personnel Manager,
1025 Laurentien Blvd.,
St. Laurent 380, Quebec.
(514) 744-6771

Activity

Requirements

Chemistry, Biochemistry, Biology,
Microbiology
and Bacteriology (B-P,D)

General Information

Recruits as necessary. English, French and bilingual personnel are required. Employment is offered at St. Laurent. Ayerst, McKenna & Harrison Limited is a worldwide organization with sales offices and laboratories in many countries. There is a summer employment program.

BABCOCK & WILCOX CANADA LTD

Mr. J.R. Ashton, Manager, Employee Relations,
Coronation Boulevard,
Galt, Ontario.
(519) 621-2130

Activity

Manufactures pumps, boilers, steam generators and auxiliary equipment. The company also designs and erects the equipment it sells. It has a large Engineering and Construction Department.

Requirements

Engineering: Mechanical (B)

General Information

English is essential in all areas of the Company. French, English and bilingual personnel are required for sales positions in the Province of Quebec. Recruits from October to February. Recruiting literature is available.

BACTISAN LABORATORIES

Dr. K.A. Mian, Director
280 Metcalfe Street,
Ottawa, Ontario. K2P 1R7
(613) 236-5363

Activity

A laboratory testing medical specimens, pharmaceuticals, food, waste, and other miscellaneous articles.

Requirements

Bacteriology and microbiology (B-P,M,D)(S),
Pharmacy (B), Commerce and Business
Administration (B)

General Information

English speaking and bilingual personnel are required. There is a summer employment program. Recruits as necessary.

BAILEY METER COMPANY LIMITED

Mr. J.E. Andrews, Manager, Employee Relations,
205 Brunswick Blvd.,
Pointe-Claire, Quebec.
(514) 697-6770

Activity

Bailey Meter Company Limited manufactures industrial meters, instruments and control systems, including digital computers, data logging and analogue systems.

Requirements

Arts (any discipline) (S)
Engineering: Mechanical and Electrical (B)(S),
Industrial (B)

General Information

Recruits as necessary. Recruiting literature is available. There is a summer employment program. Established in 1921, Bailey Meter Company Limited has district sales and service offices in major centres across Canada. It recruits in Canada only. It has 500 employees. Bilingualism an asset; English is essential for jobs within or outside the province of Quebec.

BANK OF CANADA

Mr. Daniel C. Quinlan, Manpower Resources Officer,

BRISTOL AEROSPACE (1968) LIMITED

Mr. F.L. Hinings,
Personnel Manager,
P.O. Box 874,
Winnipeg 1, Manitoba.

Activity

The company operates a modern manufacturing facility and is a pioneer and innovator in the precision fabrication of modern high strength alloys and high temperature and corrosion resistant alloys. A principal area of manufacturing is the fabrication of major welded jet engine components for leading gas turbine engine manufacturers. Included in special alloy fabricating work at Bristol is the design and manufacture of nuclear research equipment. The Company is also engaged in the design and manufacture of filament wound and reinforced plastic components including pressure vessels, rocket nose cones and other structures employed in undersea, land and airborne applications.

Paralleling its activities in manufacturing, Bristol is a major contractor to military and civil customers in the inspection, rework, and modification of aircraft. Aircraft types range from supersonic fighters through a variety of civil utility aircraft to helicopters. In the field of aircraft service, Bristol manufactures various auxiliary equipment. Included are Bristol designed retractable wheel skis for winter and far northern conditions, seaplane floats for amphibious landing capability and equipment to improve aircraft performance.

Technical support to the aircraft departments is concerned with the numerous aspects of aircraft system installations including electrical, radio, instruments and hydraulics, together with structural analysis and aircraft assembly.

A major engineering activity at Bristol is the design and development of Black Brant rockets and space vehicles for use in upper atmosphere research. This activity involves the development of advanced technology in many directions.

In the main departmental divisions of vehicle design, propulsion, instrumentation, and launch services, engineering and technical personnel are involved in rocket structure design, propulsion and flight research, propellant processing and casting, design and development of rocket-borne telemetry and electronic instrumentation and launch services at rocket ranges. In addition to functions already mentioned, personnel

are employed in engineering development for the manufacturing and aircraft departments.

Requirements

Engineering: Mechanical, Aeronautical and Electronic (B,M)

General Information

Recruits as necessary. Personnel must speak English.

BRITISH COLUMBIA CIVIL SERVICE COMMISSION

Mr. K.M. Hanson, Chief Selection Officer,
Parliament Buildings,
Victoria, British Columbia.
(604) 382-6111

Activity

The British Columbia Civil Service Commission recruits for all the ministries in the provincial government.

CANADA - GOVERNMENT OF

Director, (indicate specific program)
Public Service Commission,
Tower "A", Place de Ville,
Ottawa, Ontario.

Activity

The Public Service Commission of Canada is the staffing body of the Federal Public Service, the largest employer with the greatest variety of occupations in Canada.

Within the Public Service Commission are staffing programs responsible for recruiting university graduates from bachelor to doctorate level. The Public Service Commission recruits for more than fifty government departments and agencies. Commission headquarters are in Ottawa with Regional Offices located across Canada.

THE ADMINISTRATIVE MANPOWER RECRUITMENT AND DEVELOPMENT PROGRAM

Recruits graduates in Commerce, Arts, Computer Sciences and Business Administration, and is responsible for providing a continuous flow of skilled administrators to the Public Service.

Administrative trainees are placed in a variety of learning situations in various areas of the Public Service. Provided with these opportunities, the trainee develops a sense of responsibility and the capacity to integrate rapidly within departments and agencies of the Public Service of Canada.

THE APPLIED SCIENCES PROGRAM

Recruits engineers in all disciplines. Most requirements are for graduates at the bachelor level.

THE BIO-PHYSICAL SCIENCES PROGRAM

Recruits bachelor graduates in chemistry, pharmaceutical chemistry, agriculture, forestry and physics-mathematics. A limited number of masters graduates are required for research in a variety of specializations in the biological, physical and related sciences.

THE SOCIAL-ECONOMIC PROGRAM

Recruits all types of economists and has a need for those with specialties in transportation, resource economics and regional development. Statisticians and Mathematicians are also required. There is a growing requirement for post-graduates possessing specialization in these disciplines.

This program also recruits lawyers, librarians, historical researchers and translators.

General Information

The normal university recruiting period for first degree graduates is October to January, for post-graduate degree holders, year-round. Literature regarding employment opportunities with the Public Service of Canada is available

to Canadian students at their campus placement offices. English and French-speaking personnel are required.

Employment is offered across Canada and, for those in the Foreign Service Officer category, in 70 countries around the world. However, in the Sciences and Social Sciences opportunities are largely restricted to the Ottawa-Hull area. There is a summer employment program. Although a limited number of positions are filled by departments recruiting independently, all applications sent to the above address will receive full consideration. The various departments of government are listed below:

Agriculture Communications
Consumer and Corporate Affairs
Energy, Mines and Resources
External Affairs
Finance
Fisheries and Forestry
Indian Affairs and Northern Development
Industry Trade and Commerce
Insurance
Justice
Labour
Manpower and Immigration
National Defence
National Health and Welfare
National Revenue
Public Works
Regional Economic Expansion
Transport
Treasury Board
Veterans Affairs

In addition to the above-listed departments, the following agencies of the federal government recruit independently, and will be found listed alphabetically:

ATOMIC ENERGY OF CANADA LIMITED
BANK OF CANADA
CANADIAN NATIONAL
CANADIAN OVERSEAS
TELECOMMUNICATION CORP.
CANADIAN PENITENTIARY SERVICE
CENTRAL MORTGAGE AND HOUSING CORP.
DEFENCE CONSTRUCTION (1951) LIMITED
DEFENCE RESEARCH BOARD
ELDORADO NUCLEAR LIMITED
NATIONAL RESEARCH COUNCIL
ST. LAWRENCE SEAWAY AUTHORITY

Administration (B)

General Information

Recruits as necessary. English-speaking and bilingual personnel are required. Green Giant of Canada Limited operates canneries in Eastern Canada and sales offices across the country. Recruiting literature is available.

GREENSHIELDS INCORPORATED

Mr. Harry L. Frost, Manager — Montreal
Retail Sales,
4 Place Ville Marie,
Montreal 113, Quebec.
(514) 861-3831

Activity

It offers investment advice and financial planning to governments, corporations and individuals since 1910. The Company is one of the principal money market dealers to the Bank of Canada and a member of principal Canadian Stock Exchanges and the Mid-West Exchange in Chicago. As a fully-integrated firm, Greenshields offers a wide variety of financial services

— among them: research, money market facilities, bond trading, stock trading, underwriting, and individual, corporate and institutional portfolio management. A private company, Greenshields Incorporated is owned and operated by its senior officers and employees. The account executive is a professional security salesman who is expected to be thoroughly conversant with all phases of the investment business so that he can properly advise those who control pools of capital as to the optional placement of their resources. Having gained the confidence of his clients, the Account Executive's most important function is defining and safeguarding his clients' investment objectives. The successful Account Executive requires good judgement, and must consistently be able to single out worthwhile investment opportunities and match these with the varying degrees of risk and reward which suit his client. He must have a constantly inquiring mind and an aptitude for economics. The investment industry is dependent on new ideas and concepts and is constantly looking for imaginative and original people with a strong interest in finance. The Company has a six-month in-depth training program which exposes candidates to all phases of the investment business through work in all departments accompanied by lectures and seminars.

Requirements

Economics (B-P-H,M)
Commerce and Business Administration (B,M)

General Information

The account executive is the most normal method for entry into the investment business. However, candidates with similar academic backgrounds are hired directly for Institutional Sales, Underwriting and Corporate Development, and as Analysts. Analysis and Underwriting are more defined areas and their training is, therefore, more specialized. Institutional security salesmen are trained in the same manner as Account Executives but usually spend more time understudying debt and equity traders than an Account Executive. Recruits year-round. English-speaking and bilingual personnel are required. Recruiting literature is available. There is a summer employment program. Employment is offered at Vancouver, Edmonton, Calgary, Winnipeg, Toronto, Hamilton, Ottawa, Quebec, Montreal, London, England, New York, U.S.A., Zurich Switzerland. Training will take place in Montreal and Toronto.

GTE AUTOMATIC ELECTRIC (CANADA) LTD

Mr. D.M. MacIntyre, Employment Supervisor,
100 Strowger Blvd.,
Brockville, Ontario. K6V 5W8
(613) 342-6621

Activity

A leader in the telecommunications industry for more than 80 years, this company is one of the largest suppliers to the telephone industry in Canada and abroad. Products manufactured include sophisticated electronic switching systems such as C-1 EAX, Crosspoint Tandem (XPT), No. 1 EAX, Traffic Service Position System (TSPS), Centralized Automatic Message Accounting (CAMA), as well as the electromechanical systems, and Enterphone, an apartment entrance control system which was

developed by the company's Research & Development laboratories. C-1 EAX, Canada's first electronic exchange also was designed and developed in the company's R&D labs. This progressive company also manufactures subscriber equipment and it markets, on a distributor basis, a full line of associated products.

Requirements

Engineering: Electrical, Industrial, Mechanical and Physics (B)

Commerce and Business Administration (M)
Computer Sciences (B-H)

General Information

Recruits as necessary. Personnel must speak English. GTE Automatic Electric (Canada) Limited has its main plant in Brockville and a branch plant in Lethbridge, Alta. Recruiting literature is available.

GULF OIL CANADA LIMITED

Mr. D.R. Motyka, Co-ordinator, Corporate Training,
800 Bay Street,
Toronto 116, Ontario.
(416) 924-4141

Activity

Gulf Oil Canada is an integrated oil company engaged in exploration, production, transportation, refining and marketing of crude oil, its products and natural gas. Gulf Canada is also involved in petroleum and chemical research and development, computer applications and other service activities.

Requirements

Arts and Social Science (any discipline) (B-H)
Chemistry, Geology, Geophysics and
Computer Sciences (B-H)
Mathematics (B-H) and Physics (B-H)
Commerce and Business Administration (B)
Engineering: Chemical, Geological, Civil,
Electrical, Industrial and Mechanical (B)

General Information

Gulf Canada recruits year-round. Recruiting literature is available. Gulf Canada operates refineries in six provinces and gas plants in Western Canada. Exploration and production are conducted mainly in Western Canada. There are sales offices across Canada. Research and development activities are centralized near Toronto. Computer centres are operated in Montreal, Toronto and Calgary. There is a summer employment program.

HALIFAX BOARD OF SCHOOL COMMISSIONERS

JOY MANUFACTURING CO. (CANADA) LIMITED

Mr. G.L. Robertson, Manager Industrial Relations,
P.O. Box 100,
Galt, Ontario. N1R 5T4
(519) 623-1550

Activity

Joy Manufacturing Company (named for its founder, the late Joseph F. Joy) is a leading designer and manufacturer of diversified industrial equipment. Closely-related to the energy field, the company pioneered the mechanization of the coal mining industry and today is a leading supplier of high-production mining machines. It provides the oil and gas industry with both exploration and production tools. Its minerals and metals mining equipment and ore processing systems provide uranium for nuclear energy. The company's air pollution control systems are utilized at power plants to prevent the generating of electrical energy from harming the atmosphere. The company operates 16 plants in the United States and nine in foreign countries. It recently established an Advanced Development Center at Galt, Ontario for the study and design of new hard-rock mining systems. The company's products are available in virtually every country open to U.S. commerce and about one-third of the company's sales are

now made abroad. A quarter of Joy's 10,300 employees work at facilities outside the U.S. Joy has its headquarters at the Henry W. Oliver Building, Pittsburgh, Pa. 15222. The Canadian company is located in Galt, Ontario where Manufacturing & Research and Development activities take place. Other Canadian divisions are located in North Bay, Winnipeg, Montreal, Toronto. Over 800 people are employed by JOY in Canada.

ONTARIO MINISTRY OF TRANSPORTATION AND COMMUNICATIONS

Mr. R. Draycott, Recruitment Supervisor,
1201 Wilson Avenue,
Downsview 464, Ontario.
(416) 248-3645

Activity

Ontario Ministry of Transportation and Communications is responsible for providing an integrated and balanced transportation system embracing road, commuter rail and bus services, air services and airports, water and various electronic communications services throughout Ontario. While the Ministry's responsibilities have increased, it is still directly responsible for 13,000 miles of the King's Highway network, in addition to participating in municipal road and bridge building programs involving 83,000 miles of road by providing subsidies and technical assistance. For the new graduate Civil Engineer, this means he joins a team that has consolidated manpower and resources to provide the base for some of the most comprehensive transportation research and development carried out in Canada. Transportation and Communications has approximately 450 professional engineers on staff and more than 12,000 employees throughout the province, with headquarters at Downsview, Ontario. New engineers are normally assigned to one of the Ministry's 18 operating districts for two construction seasons, advancing to the position of Project Engineer in charge of a specific construction contract during this initial training. Following this period of practical field experience, he has the opportunity of indicating his particular field of engineering interest, whether it be planning, design, operations research, among others. The new engineer is given experience in different phases of the Ministry's operations to prepare him for promotion to progressively senior positions. For those with prime interest or post-graduate degrees in specialized fields of engineering, consideration would be given to direct entry in their fields.

Requirements

Engineering: Civil (B)(S)

General Information

The normal recruiting period is from November to January. Personnel must speak English. Recruiting literature is available. There is a summer employment program. Employment is offered at Chatham, London, Stratford, Hamilton, Owen Sound, Toronto, Port Hope, Kingston, Ottawa, Bancroft, Huntsville, North Bay, New Liskeard, Cochrane, Sudbury, Sault Ste. Marie, Thunder Bay and Kenora.

SCHLUMBERGER OF CANADA
Learning Centre,

Mr. A.F. Bosworth, Manager — Field Engineer Development,
 8629 Coronet Road,
 Edmonton, Alberta. T6E 4P2
 (403)469-0494

Activity

Schlumberger of Canada is one of a group of international companies that provide services to companies engaged in the exploration for and recovery of oil and gas. Because drilling goes on 24 hours a day, so does the work of a Schlumberger Engineer. When on call, he must be available day or night. Engineers are trained to record in the field a variety of subsurface electrical and mechanical measurements and also interpret the results. The Engineer is in charge of a crew and survey unit. The job involves simultaneous technical, sales and administrative responsibilities. Following experience in Canada, opportunities exist for transfer to associated world-wide companies.

Requirements

Engineering: Electrical, Mechanical and Physics (B)

General Information

Recruits as necessary — largest number hired in June. Recruiting literature is available. Personnel must speak English. Schlumberger offers employment in the Prairies and British Columbia. There is a summer employment program.

C.D. SCHULTZ & COMPANY LIMITED

Mr. C.D. Schultz, President,
 325 Howe Street,
 Vancouver 1, B.C.
 (604)684-7335

Activity

Offers consulting services in all aspects of the field of forestry on a world-wide basis.

Requirements

ONTARIO MINISTRY OF TRANSPORTATION AND COMMUNICATIONS

Monsieur R. Draycott, Surveillant du
recrutement
1201, avenue Wilson
Downsview 464 (Ontario)
(416) 248-3645
Activités
Le Ministère des Transports et Communications d'Ontario est responsable pour fournir un système intégré et balancé de transports embrassant chemins, services d'autobus et de trains de banlieu, services aériens et aéroports, eau et divers services de communication électrique à travers l'Ontario. Tandis que les responsabilités du Ministère ont accru, il est toujours directement responsable pour les 13,000 milles du réseau du chemin du roi, en plus de participer dans des programmes municipaux de construction de routes et de ponts enveloppant 83,000 milles de route en fournissant des subventions et de l'assistance technique. Pour le nouveau gradué en Génie Civil, ceci signifie qu'il se joint à une équipe qui a consolidé toute sa main-d'oeuvre et ses ressources afin de fournir la base pour une des recherches les plus complètes sur la transportation et le développement au Canada. Les Transports et Communications emploie approximativement 450 ingénieurs professionnels et plus de 12,000 employés à travers la province, avec le bureau central situé à Downsview, Ontario. Les nouveaux ingénieurs sont normalement assignés pendant deux saisons de construction à un des 18 districts opérants, avançant à la position d'ingénieur de projet en charge d'un contrat spécifique de construction pendant sa formation initiale. A la suite de cette période d'expérience pratique, il a l'occasion d'indiquer son champ particulier d'intérêt en génie, que ce soit la planification, le dessin, la recherche opérationnelle ou autre. Le nouvel ingénieur acquiert de l'expérience dans différents phases des opérations

NORTH BATTLEFORD SCHOOL DISTRICT NO. 1438 AND NORTH BATTLEFORD COLLEGIATE INSTITUTE NO. 12

Monsieur P.K. Ward
Directeur de l'éducation
1301, 104e Rue
North Battleford (Saskatchewan)
Activités

Le district scolaire no 1438 de North Battleford dessert les élèves de la maternelle jusqu'à la 9e année. Six écoles donnent des cours allant de la maternelle à la 6e année et il y a une grande école secondaire junior. On y trouve également trois salles auxiliaires et un programme d'enseignement coopératif et de formation au travail.

Il y a également une école pour l'enfance exceptionnelle. Le Collegiate Institute Board no 12 dirige une école secondaire polyvalente ouverte récemment et comprenant l'enseignement classique, technique et professionnel de la 10e à la 12e année. Un programme assez élaboré d'éducation des adultes est actuellement en voie d'organisation.

1372, 100e Rue
North Battleford, (Saskatchewan)
Activités
La North Battleford School Unit No. 58 admet 19 écoles primaires et deux écoles secondaires, toutes situées dans la région de North Battleford. Les écoles offrent les cours de la 1re à la 12e année, ainsi que des cours d'initiation au travail. Il y a une école française.

NO. 58 NORTH BATTLEFORD SCHOOL UNIT
Monsieur B.M. MacKinnon
Secrétaire-trésorier
1372, 100e Rue
North Battleford, (Saskatchewan)
Activités

Le recrutement se fait au besoin. Le personnel doit parler l'anglais. Le district dessert la ville de North Battleford, dont la population est d'environ 12,300 personnes, et dispose d'un personnel enseignant de 84 membres pour environ 1,900 élèves. L'école secondaire dispose d'un personnel de 44 professeurs pour environ 840 élèves.

Renseignements généraux
Pédagogie (B,M)
Le recrutement se fait ordinairement de mai à septembre. Besoin de personnel d'expression anglaise et française. Personnel enseignant de 83 membres pour 1,697 élèves. Des logements peuvent être mis à la disposition des professeurs. Il existe de la documentation sur le recrutement.

NORTHERN COLLEGE OF APPLIED ARTS AND TECHNOLOGY
Agent administratif
155, rue Pine sud
Timmins (Ontario)
Activités
Le Collège Northern, école d'arts appliqués et de technologie, décerne des diplômes en technique, de la chimie, du génie civil, de l'électronique, de la mécanique et de l'exploitation

minière, ainsi qu'en gestion des entreprises. Cette école décerne également des certificats de techniciens en comptabilité, machines de bureau, chimie, dessin, électronique, exploitation minière et arpentage, ainsi qu'en secrétariat et en service social. Cet établissement offre des programmes de recyclage aux travailleurs sans emploi, ainsi que des programmes de formation concernant les entreprises et les industries en gestion. Ce collège est établi à Haileybury, Kirkland Lake et South Porcupine, et dirige des centres de recyclage dans les districts de Cochrane et de Temiskamingue, ainsi que dans la région côtière de la baie James.

JOY MANUFACTURING CO. (CANADA)

LIMITED

Monsieur G.L. Robertson

Gérant des relations industrielles

Casse postale 100

Galit (Ontario) N1R 5T4

(519) 623-1550

Activités

La Joy Manufacturing Company (qui porte le

nom de son fondateur, feu Joseph F. Joy) est

l'un des plus importants concepteurs et fabri-

cants de matériel industriel diversifié. Etroite-

ment associée au secteur de l'énergie, la société

fut le pionier de la mécanisation des mines de

charbon, et est aujourd'hui un des plus impor-

tauts fournisseurs de matériel minier à haute

production. Elle fabrique l'équipement d'explo-

ration et de production de l'industrie du gaz et

du pétrole. Son matériel d'exploitation des mi-

néraux, et ses systèmes de traitement du mine-

rai servent à la production de l'uranium, source

d'énergie nucléaire. Les systèmes de lutte contre

la pollution atmosphérique mis au point par la

société sont utilisés dans les centrales électri-

ques. La société possède 16 usines aux États-

Unis et neuf à l'étranger. Elle a créé récemment

à Galit (Ontario) l'Advanced Development

Center (Centre de technique de pointe) destiné

à étudier et à concevoir des nouveaux systèmes

d'extraction des roches dures. Les produits de

la société sont vendus dans pratiquement tous

Renseignements généraux

les pays ouverts au marché américain, et envi-

ron le tiers de ses ventes sont effectuées à l'é-

tranger. Des 10,300 employés de Joy, le quart

environ travaillent à l'extérieur des États-Unis.

Le siège social de la société se trouve à l'Edifice

Henry W. Oliver, Pittsburg, Pa. 15222. La so-

cité canadienne est située à Galit (Ontario) où

l'on effectue des travaux de fabrication, de re-

cherche et de développement. D'autres sucur-

sales canadiennes ont été créées à North Bay,

Winnipeg, Montréal et Toronto. JOY emploie

plus de 800 personnes au Canada.

THE GREAT LAKES PAPER COMPANY LIMITED

Monsieur C.F. Roach, Gérant
Relations industrielles
Case postale 430
Thunder Bay (Ontario)
(807) 623-9581

Activités

La Great Lakes Paper Company Limited ex- ploite quatre machines à papier-journal dont la capacité pour 1968 était de 422,956 tonnes, sur une base d'une semaine de sept jours. Elle fa- brique aussi des pâtes dissoutes, décolorées ou non décolorées.

Candidats Recherchés

Forestier (B)(E)
Génie: Chimique et civil (E)

Renseignements généraux

Le recrutement se fait au besoin. Le personnel doit parler l'anglais. La Great Lakes Paper Company Limited, située à Thunder Bay, a près de 13,700 milles carrés de territoire forestier. Il y a un programme d'emploi d'été.

GREAT-WEST, COMPAGNIE D'ASSURANCE-VIE

voir La Compagnie d'Assurance-Vie Great-West

GREENSHIELDS INCORPORÉE

Monsieur Harry L. Frost
Gérant — Vente au détail à Montréal
4, Place Ville Marie
Montréal 113 (Québec)
(514) 861-3831

Activités

Greenshields offre des conseils d'investissement et des propositions financières aux gouverne- ments, aux corporations et aux individus depuis 1910. La compagnie est un des principaux né- gociants du Marché monétaire à la Banque du Canada et un membre de la Bourse canadienne principale ainsi que du Mid-West Exchange de Chicago. En tant que maison de commerce en- tièrement intégrée, Greenshields offre une gran- de variété de services financiers — parmi ceux-ci: la recherche, positions aux marchés métal- res, échange de bons et de valeurs, souscription et portefeuille de gérance individuel, enregistre- et institutionnel. Greenshields, une compagnie privée, est possédée et opérée par les officiers conseillers et les employés. L'exécutif du comp- te est un vendeur professionnel de sécurities qui doit connaître tous les aspects de l'investisse- ment afin qu'il puisse sagement conseiller ceux

qui contrôlent de grosses sommes d'argent dans le placement de leurs fonds. Ayant acquis la confiance de ses clients, le rôle le plus important de l'exécutif du compte est de définir et de sauvegarder les buts des investissements de ses clients. L'exécutif du compte qui a du succès requiert un bon jugement et doit toujours être capable de trouver les meilleures opportunités pour l'investissement et les apparier avec les degrés variés de risque et de gain qui satisfas- sent ses clients. Il doit avoir un esprit inquisi- teur et une aptitude pour l'économie. L'indus- trie de l'investissement dépend de nouvelles idées et de nouveaux concepts et cherche cons- tamment des gens imaginatifs et originaux qui s'intéressent fortement à la finance. La compa- gnie offre un cours de formation de six mois qui expose les candidats à tous les aspects du travail d'investissement et des séminaires.

Candidats Recherchés

Économie (B-G-S,M), Commerce et administration des affaires (B,M)

Renseignements généraux

La position d'exécutif du compte est normale- ment le poste par lequel on entre dans le monde de l'investissement. Toutefois, les candidats avec le même fond académique sont recrutés directement pour les Ventes Institutionnelles, pour la souscription et le développement entre- gistré et comme analystes. L'analyse et la sous- cription sont des régions bien définies et leur formation est alors plus spécialisée. Les ven- deurs institutionnels de sécurities sont formés de la même façon que les exécutifs du compte mais passent plus de temps étudiant la dette et les échanges équitaires que l'exécutif du compte. Le recrutement se fait à l'année longue. Il existe de la documentation sur le recrutement. On demande du personnel de langue anglaise et bilingue pour la province de Québec. Des em- plois sont offerts à Vancouver, Edmonton, Cal- gary, Winnipeg, Toronto, Hamilton, Ottawa, Québec, Montréal, Londre (Angleterre), New York (Etats-Unis) et Zurich (Suisse).

sance de la langue anglaise est indispensable.

BRISTOL AEROSPACE (1968) LIMITED

Monsieur F.L. Hinings

Gérant du personnel

Boîte postale 874

Winnipeg 1 (Manitoba)

Activités

La compagnie dirige un centre de fabrication

très moderne et joue un rôle de pionnier et de

novateur dans la fabrication de précision d'al-

liages modernes très robustes et d'alliages résis-

tant à la corrosion et aux fortes températures.

Elle se consacre particulièrement à la construc-

tion des gros organes soudés de réacteurs desti-

nés aux principaux fabricants de moteurs de

turbines à gaz. En outre, la compagnie Bristol,

de pair avec la fabrication de ces alliages spé-

ciaux, étudie et fabrique du matériel de recher-

che nucléaire. Elle s'occupe également de la

création et de la fabrication d'éléments bobinés

et de pièces en plastique renforcé; bacs pressur-

sés, ogives de fusées, et autres structures utili-

sées dans la navigation aérienne, sous-marine

ou terrestre ainsi que dans divers projets

expérimentaux.

Outre ses activités de construction, la compa-

gnie Bristol, soit pour l'armée, soit pour des

sociétés privées, se charge d'inspecter, de re-

mettre en état ou de modifier des aéronefs de

tous genres, partant des avions de chasse super-

soniques jusqu'aux hélicoptères en passant par

divers appareils civils. Toujours dans ce domai-

ne, la compagnie fabrique du matériel auxiliai-

re: les patins rétractables conçus par Bristol

pour l'hiver et les conditions polaires, les flot-

teurs d'hydravion permettant l'atterrissage sur

l'eau et divers éléments visant à améliorer les

performances des machines.

Les divisions techniques qui aident les services

du matériel s'occupent des nombreux aspects

des installations-a-vions; instruments électri-

ques, de radio, hydro-mécanique, ainsi que des

analyses de structure et du montage des

aéronefs.

La conception et l'élaboration des fusées «Black

Brant» et de véhicules spatiaux destinés à l'ex-

ploration des couches supérieures de l'atmos-

phère constituent l'une des activités principales

de la compagnie et nécessitent une technologie

particulièrement avancée dans tous les

domaines.

Dans les principaux services chargés de la con-

ception, de la propulsion, de l'équipement en

instruments et du lancement des véhicules, des

techniciens et des ingénieurs étudient la structu-

re des fusées, font de la recherche sur la propul-

sion et le vol, s'occupent du traitement et du

coulage du propulseur, de la conception et l'éla-

boration de l'équipement de télémétrie à bord

des fusées ainsi que des instruments électroni-

ques et du lancement des fusées.

Outre ces activités, certains employés sont res-

pensables du perfectionnement des techniques

pour les divisions chargées de la fabrication et

des aéronefs.

BOURSES D'ÉTUDES BOURSES D'ENTRETIEN ET PRÊTS

Le fardeau financier de l'étudiant d'université devient de plus en plus difficile à porter. Il est cependant possible d'obtenir une aide financière de plusieurs sources, mais surtout des programmes de prêts gouvernementaux. Précisons que beaucoup d'universités, d'organismes, d'associations et de personnes intéressées à l'éducation accordent des bourses d'études, des bourses d'entretien et des prêts qui permettent d'alléger ce fardeau financier.

Dans une publication intitulée "Bourses de recherches et d'études supérieures," Statistique Canada donne une liste des bourses qui sont à la disposition des personnes désireuses d'entreprendre des études supérieures. Comme il arrive souvent qu'une bourse soit adjugée à plus d'une personne à la fois, le nombre d'étudiants qui en bénéficient est donc plus élevé qu'on ne le croirait de prime abord. De plus, beaucoup d'organismes qui accordent de telles bourses en adjugent également à des candidats au premier grade.

Il existe de nombreuses sources pour obtenir une bourse d'entretien, mais la plus importante est certainement l'université elle-même. Toutes, ou presque toutes les universités canadiennes, accordent des bourses d'entretien.

Outre ces bourses, dont la plupart ne sont pas remboursables, une autre aide financière est mise à la disposition des étudiants. L'université possède généralement une petite caisse de réserve destinée aux prêts à court terme (généralement exempts d'intérêt) pour les cas d'urgence. Le programme canadien de prêts aux étudiants mis en application par les provinces, garantit les prêts accordés aux étudiants admissibles et paie l'intérêt jusqu'à ce qu'ils aient terminé leurs études. Tout en étant une source d'argent appropriée, ce programme permet de faire bénéficier les étudiants d'un taux d'intérêt avantageux.

Pour obtenir des renseignements au sujet des bourses d'études, des bourses d'entretien et des prêts, prière de vous adresser au responsable de l'aide financière dans toute université.

INTRODUCTION

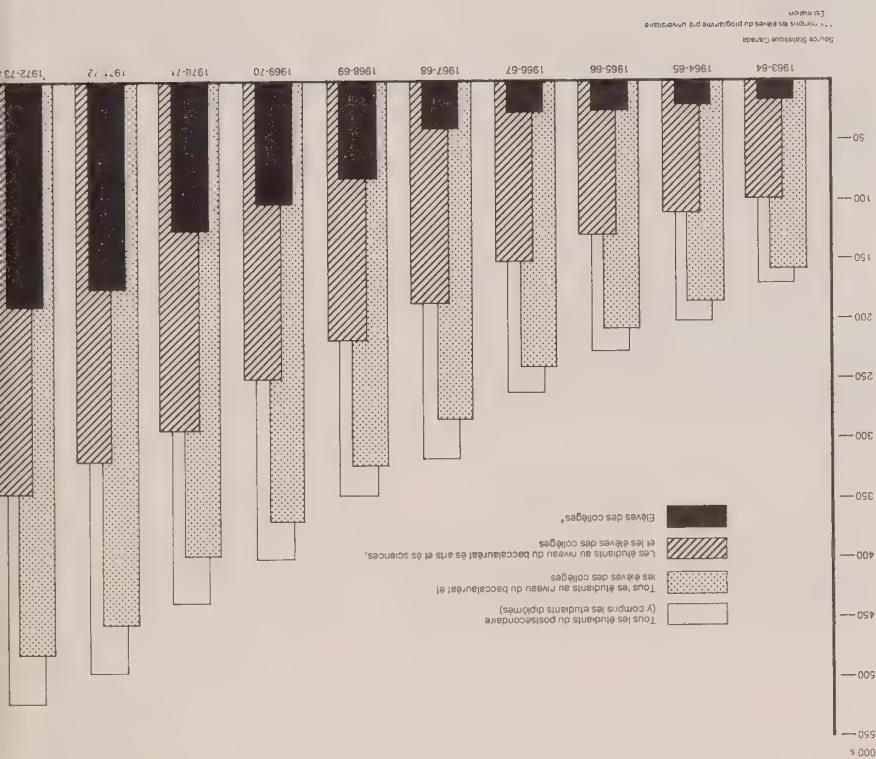

L'annuaire traite de profils d'employeurs, de descriptions de leurs affaires ou de leurs activités et des diplômés qu'ils recherchent selon le niveau d'étude.

Les index et les recoupements visent à faciliter l'utilisation des renseignements disponibles concernant les employeurs et les occasions d'emploi. C'est pourquoi aussi, un guide, intitulé "Comment utiliser l'annuaire" apparaît à la page 11.

Le graphique représente les inscriptions aux établissements canadiens d'études supérieures pour les années universitaires 1963-64 à 1972-73. L'augmentation globale entre 1971-72 et 1972-73 est 26,000 ou 5,3 pour cent. Les étudiants des universités représentent 330,250 ou 63,8 pour cent, et les étudiants des collèges 187,610 ou 36,2 pour cent des inscriptions totales.

Il importe de remarquer que les inscriptions aux collèges n'ont subi qu'une légère hausse d'année en année jusqu'à l'année scolaire 1966-1967, alors que les inscriptions aux différents niveaux de grade ont continuellement augmenté. Cependant, de l'année scolaire 1967-1968 à celle de 1970-1971, les inscriptions aux collèges ont subi une augmentation sensiblement supérieure à celle qu'ont connue les inscriptions aux universités durant la même période, à cause de la fusion de certains établissements d'enseignement supérieur et de quelques collèges. Cette situation est surtout particulière à la province de Québec où la majorité des élèves des CEGEP suivent en fait des programmes pré-universitaires et peuvent poursuivre des études universitaires à la sortie du CEGEP.

Graphique 1
Inscriptions aux universités et aux collèges du Canada de 1963-1964 à 1972-1973*

Il me fait plaisir de vous féliciter et de vous présenter mes vœux les meilleurs, à vous, membres de la promotion de 1974, qui vous préparez à passer de la vie universitaire à la première étape de votre carrière professionnelle.

Dans notre société complexe, il est très important que chacun soit satisfait de son travail, maintienne ainsi son intégrité personnelle et tire le meilleur profit possible de ses compétences. Le présent annuaire, où vous trouverez les noms d'un grand nombre des employeurs les plus importants des nouveaux diplômés d'université, vous aidera à choisir votre premier emploi.

J'espère que cette nouvelle étape importante de votre vie vous conduira à une carrière intéressante et contribuera au développement futur de notre pays.

ROBERT ANDRAS

OTTAWA
1973

COMMENT UTILISER L'ANNUAIRE

Lorsqu'on parle d'emploi d'été, on ne parle que de travail dans une discipline connexe aux études du candidat. L'employeur peut engager des étudiants en vacances pour travailler dans d'autres secteurs, mais cela ne peut être établi à partir des renseignements contenus dans l'annuaire.

Les références aux exigences linguistiques d'un employeur n'ont pas trait à la langue maternelle du candidat. Quand il est dit que l'employeur veut du "personnel de langue française" ou du "personnel de langue anglaise," cela ne veut pas dire ou laisser supposer que la langue maternelle du candidat doit être l'anglais ou le français. L'index des employeurs est recoupé de trois façons:

1) selon la nature de l'entreprise;

2) selon la discipline et le diplôme exigé; et

3) selon la ville et la province.

Si vous connaissez le nom d'un employeur à qui vous désirez présenter une demande d'emploi, vous n'avez qu'à chercher son nom dans la liste alphabétique. Cependant, si vous vous intéressez à n'importe quel employeur qui veut engager des diplômés dans votre domaine d'études, ou à un employeur dans un genre particulier de travail, ou à un employeur situé dans une province ou une ville en particulier, vous pouvez alors consulter l'index (recoupement). Le détail des recoupements est consigné à la table des matières, à la page ii.

L'annuaire contient trois sections principales: une section narrative, une série d'index (recoupement) servant de guide à la liste des employeurs et une liste alphabétique des employeurs canadiens.

Chaque inscription de la liste alphabétique renferme le nom d'un employeur, son adresse, le nom du responsable du recrutement des diplômés, et une brève description de l'employeur. Dans la mesure du possible, nous avons utilisé un format standard pour toutes les descriptions d'employeurs.

Chaque description contient trois rubriques principales, à part le nom et l'adresse de l'employeur: "Activités," "Candidats recherchés" et "Renseignements généraux." "Activités" décrit ce que fait l'employeur, "Candidats recherchés" donne une liste des domaines d'études et des niveaux de diplôme exigés des candidats éventuels, et "Renseignements généraux" contient les autres renseignements pertinents. Autant que possible, les seules abréviations utilisées ont été "B," "B-G," "B-S," "M," "D" et "E" signifiant respectivement, baccalauréat, baccalauréat-général, baccalauréat avec spécialisation, maîtrise, doctorat et emploi d'été. Cependant, quelques phrases types utilisées sont tout au long de l'annuaire peuvent exiger des précisions.

AVANT-PROPOS

présent annuaire se propose principa-
ment de fournir aux diplômés des uni-
versités et aux agents de placement des
enseignements sur les possibilités d'em-
ploi au Canada. L'annuaire est également
attribué aux étudiants canadiens à l'é-
tranger et aux agents d'outre-mer du Mi-

nistère de la Main-d'œuvre et de
l'immigration.
Division de la documentation d'orienta-
tion professionnelle met à jour d'autres
publications concernant l'éducation post-
secondaire, lesquelles incluent:

HOW TO USE THIS DIRECTORY

This Directory has three main sections: a narrative, a series of cross-indexes as a guide to the list of employers, and an alphabetically arranged listing of Canadian employers. Each entry in the alphabetical listing gives the name of the employer, the address, the name of the officer responsible for recruiting degree-level staff, and a brief description of the employer. As far as possible, a standard format has been used for all employer descriptions. Each profile contains three main headings apart from the employer's name and address: "Activity," "Requirements," and "General Information." "Activity" describes what the employer does, "Requirements" lists the areas of study and degree levels of potential applicants, and "General Information" contains other relevant information. The only abbreviations used are "B," "B-P," "B-H," "M," "D," and "S," meaning Bachelor's, Bachelor's-Pass, Bachelor's-Honours, Master's, Doctoral degrees, and summer employment, respectively. However, a few standard phrases that have been used throughout the Directory may require clarification.

Where "summer employment" is mentioned, it refers only to employment in work related to a discipline of study. The employer may hire vacationing students to work in other capacities, but this cannot be determined from information given in the Directory listing. References to an employer's language requirements do not refer to an applicant's native tongue. "Requires French-speaking personnel" or "Requires English-speaking personnel" neither means nor implies that an applicant's native language must be either French or English. The listing of employers is cross-indexed in three ways:

- 1) by fields of study and degree levels;
- 2) by type of employer;
- 3) by city and province.

If you know the name of the employer to whom you wish to apply, simply look up his listing in the alphabetical section. However, if you are interested in any employer who might hire graduates from your area of study, or an employer in a particular line of work, or an employer located in a specific city and province, then the cross-index may be consulted. The layout of these cross-indexes is shown in the table of contents on page ii.

Every university graduate has the opportunity to contribute to Canadian society by using his or her special talents and skills.

This directory, which lists many of the larger employers of university graduates, is designed to help you find the employer who can provide the opportunity for you to use those skills and talents to the fullest.

Many of you will be finding full-time permanent employment for the first time. As you take this important step in your life, I hope you will find satisfying work that will lead to a rewarding career and contribute to the further development of our country.

A handwritten signature in black ink, appearing to read 'Andras', with a stylized, flowing script.

Agriculture
Attorney General
Culture, Youth and Recreation
Education
Northern Alberta Institute of Technology
Southern Alberta Institute of Technology
Highways and Transport
Industry and Tourism
Labour
Lands and Forests
Mines and Minerals
Municipal Affairs
Provincial Auditor
Provincial Secretary
Health and Social Development
Public Works

ALBERTA, PROVINCE OF

Energy Resources Conservation Board
Mr. R.F. Braun, Personnel Manager,
603-6th Avenue S.W.,
Calgary, Alberta. T2P 0T4

Activity

The Board manages energy resource operations within Alberta with objectives of: conservation; ensuring efficient and safe recovery and transport of resources; dissemination of information to industry, as well as evaluation and approval of regulations for oil sands projects, industrial permits, air, water and soil pollution. It also assesses Alberta requirements for Energy Resources and amounts of such resources

which are surplus to Alberta's long-term requirements.

Requirements

Economics (B,M)
Engineering: (any discipline) (B,M) (S)
Geology (B,M) (S), Computer Sciences (B,M)

General Information

The normal recruiting period is from October 1 to March 1. Personnel must speak English. Recruiting literature is available. The Energy Resources Conservation Board of the Province of Alberta offers a summer employment program. Employment is offered at Calgary, Edmonton, Red Deer, Drayton Valley, or Medicine Hat, Alberta.

ALBERTA WHEAT POOL

A.C. King, Personnel Administrator,
Box 2700,
Calgary, Alberta.
(403) 267-4740

Activity

The Alberta Wheat Pool is an agricultural co-operative, owned by some fifty-two thousand farmers, and is engaged in the marketing of grain, forage, cereal seed, fertilizer and chemicals. It operates five hundred and thirty local elevators, and two major grain terminal elevators in export positions.

Requirements

Computer Sciences (B-P)
Economics (B-P)
Commerce and Business Administration (B)
Agriculture (B)
Engineering: Agricultural (B)

General Information

BRISTOL AEROSPACE (1968) LIMITED

Mr. F.L. Hinings,
Personnel Manager and Industrial Relations,
P.O. Box 874,
Winnipeg, Manitoba. R3C 2S4

Activity

The company operates a modern manufacturing facility and is a pioneer and innovator in the precision fabrication of modern high strength alloys and high temperature and corrosion resistant alloys. A principal area of manufacturing is the fabrication of major welded jet engine components for leading gas turbine engine manufacturers. Included in special alloy fabricating work at Bristol is the design and manufacture of nuclear research equipment. The Company is also engaged in the design and manufacture of filament wound and reinforced plastic components including pressure vessels, rocket nose cones and other structures employed in undersea, land and airborne applications.

Paralleling its activities in manufacturing, Bristol is a major contractor to military and civil customers in the inspection, rework, and modification of aircraft. Aircraft types range from supersonic fighters through a variety of civil utility aircraft to helicopters. In the field of aircraft service, Bristol manufactures various auxiliary equipment. Included are Bristol designed retractable wheel skis for winter and far northern conditions, seaplane floats for amphibious landing capability and equipment to improve aircraft performance.

Technical support to the aircraft departments is concerned with the numerous aspects of aircraft system installations including electrical, radio, instruments and hydraulics, together with structural analysis and aircraft assembly.

A major engineering activity at Bristol is the design and development of Black Brant rockets and space vehicles for use in upper atmosphere research. This activity involves the development of advanced technology in many directions.

In the main departmental divisions of vehicle design, propulsion, instrumentation, and

launch services, engineering and technical personnel are involved in rocket structure design, propulsion and flight research, propellant processing and casting, design and development of rocket-borne telemetry and electronic instrumentation and launch services at rocket ranges. Recent activities include the development of electronic packages for environmental monitoring applications. In addition to functions already mentioned, personnel are employed in engineering development for the manufacturing and aircraft departments.

Requirements

Engineering: Mechanical, Aeronautical and Electronic (B,M)

General Information

Recruits as necessary. Personnel must speak English.

BRITISH COLUMBIA CIVIL SERVICE COMMISSION

Mr. K.M. Hanson, Director of Selection,
Parliament Buildings,
Victoria, British Columbia.
(604) 382-3651

Vancouver, B.C.

General Information

The Public Service Commission is the staffing body for the Federal Public Service which is the largest Canadian employer with the greatest variety of possible career opportunities.

The Post Secondary Recruitment Program of the Public Service Commission is responsible through its Regional Offices for the recruitment of all graduates from Community Colleges, CEGEPs and Institutes of Technology.

Challenging administrative and technological positions for both men and women exist in most government departments.

There is a constant demand for graduates in financial administration, management, statistics, computer sciences and in electronic technology. In addition to these disciplines, some regions may have particular requirements in other specializations.

Advancement within the Public Service depends on job performance, position knowledge and work aptitudes which are regularly assessed and evaluated.

A career in the Public Service guarantees such fringe benefits as annual vacation and sick leave, a comprehensive pension plan and insurance benefits.

Further information regarding employment opportunities with the Public Service of Canada for College graduates is available at all College Campus Placement Centres, and Public Service Commission Regional Offices.

THE CANADA LIFE ASSURANCE COMPANY

GREENSHIELDS INCORPORATED

Mr. Harry L. Frost, Director, National Retail Sales
4 Place Ville Marie,
Montreal, Quebec. H3B 2E8
(514) 861-3831

Activity

It offers investment advice and financial planning to governments, corporations and individuals since 1910. The Company is one of the principal money market dealers to the Bank of Canada and a member of principal Canadian Stock Exchanges and the Mid-West Exchange in Chicago. As a fully-integrated firm, Greenshields offers a wide variety of financial services – among them: research, money market facilities, bond trading, stock trading, underwriting, and individual, corporate and institutional portfolio management. A private company, Greenshields Incorporated is owned and operated by its senior officers and employees. The professional security salesperson is expected to be thoroughly conversant with all phases of the investment business so that advice can be properly given to those who own or control pools of capital as to the optimal placement of their resources. Having gained the client's confidence, through professional advice, the salesperson's most important function is defining and safeguarding the clients' investment objectives. The successful Security Salesperson requires good judgement, and must consistently be able to single out worthwhile investment opportunities and match these with the varying degrees of risk and reward which suit the client. A constantly inquiring mind and an aptitude for economics are necessities. The investment industry is dependent on new ideas and concepts and is constantly looking for imaginative and original people with a strong interest in finance.

Requirements

Economics (B-P-H,M)

JOY MANUFACTURING CO. (CANADA) LIMITED

Mr. G.L. Robertson, Canadian Area Manager,
Industrial and Personnel Relations,
P.O. Box 100,
Cambridge, Ontario. N1R 5T4
(519) 623-1550

Activity

Joy Manufacturing Company (named for its founder, the late Joseph F. Joy) is a leading designer and manufacturer of diversified industrial equipment. Closely-related to the energy field, the company pioneered the mechanization of the coal mining industry and today is a leading supplier of high-production mining machines. It provides the oil and gas industry with both exploration and production tools. Its minerals and metals mining equipment and ore processing systems provide uranium for nuclear energy. The company's air pollution control systems are utilized at power plants to prevent the generating of electrical energy from harming the atmosphere. The company operates 16

plants in the United States and nine in foreign countries. It recently established an Advanced Development Centre at Cambridge, Ontario for the study and design of new hard-rock mining systems. The company's products are available in virtually every country open to U.S. commerce and about one-third of the company's sales are now made abroad. A quarter of Joy's 10,300 employees work at facilities outside the U.S. Joy has its headquarters at the Henry W. Oliver Building, Pittsburgh, Pa. 15222. The Canadian company is located in Gait, Ontario where Manufacturing & Research and Development activities take place. Other Canadian divisions are located in North Bay, Winnipeg, Montreal, Toronto. ONTARIO MINISTRY OF TRANSPORTATION AND COMMUNICATIONS

Mr. R. Draycott, Recruitment Supervisor,
1201 Wilson Avenue,
Downsview 464, Ontario.
(416) 248-3645

Activity

Ontario Ministry of Transportation and Communications is responsible for providing an integrated and balanced transportation system embracing road, transit and bus services, air services and airports, water and various electronic communications services throughout Ontario. While the Ministry's responsibilities have increased, it is still directly responsible for 13,000 miles of the King's Highway network, in addition to participating in municipal road and bridge building programs involving 83,000 miles of road by providing subsidies and technical assistance. For the new graduate Civil Engineer, this means he joins a team that has consolidated manpower and resources to provide the base for some of the most comprehensive transportation research and development carried out in Canada. Transportation and Communications has approximately 500 professional engineers on staff and more than 12,000 employees throughout the province, with headquarters at Downsview, Ontario. New civil engineers are normally assigned to one of the Ministry's 18 operating districts for two construction seasons, advancing to the position of Project Engineer in charge of a specific construction contract during this initial training. Following this period of practical field experience, he has the opportunity of selecting his next assignment related to his particular field of engineering interest, whether it be planning, design, traffic or foundation investigation research, among others. The new engineer is given, over the next 3 or 4 years, experience in several phases of the Ministry's Engineering operations to prepare him for promotion to progressively more senior positions. For those with prime interest or post-graduate degrees in specialized fields of engineering, consideration would be given to direct entry in their fields.

Requirements

Engineering: Civil (B)(S)

General Information

The normal recruiting period is from November to January. Personnel must speak English. There is also an extensive summer employment program. Recruiting period mid-January to mid-February through on campus interviewers. Employment is offered at Chatham, London, Stratford, Hamilton, Owen Sound, Toronto, Port Hope, Kingston, Ottawa, Bancroft, Huntsville, North Bay, New Liskeard, Cochrane, Sudbury, Sault Ste. Marie, Thunder Bay and Kenora.

SCHLUMBERGER OF CANADA

Learning Centre

Mr. A.F. Bosworth, Manager — Field Engineer Development,
8629 Coronet Road,
Edmonton, Alberta. T6E 4P2
(403)469-0494

Activity

Schlumberger of Canada is one of a group of international companies that provide services to companies engaged in the exploration for and recovery of oil and gas. Because drilling goes on 24 hours a day, so does the work of a Schlumberger Engineer. When on call, he must be available day or night. Engineers are trained to record in the field a variety of subsurface electrical and mechanical measurements and also interpret the results. The Engineer is in charge of a crew and survey unit. The job involves simultaneous technical, sales and administrative responsibilities. Following experience in Canada, opportunities exist for transfer to associated world-wide companies.

Requirements

Engineering: Electrical, Mechanical Petroleum and Physics (B)

General Information

Recruits as necessary — largest number hired in June. Recruiting literature is available. Personnel must speak English. Schlumberger offers employment in petroleum exploration areas in Canada, and initial experience in the Prairies and British Columbia. There is a summer employment program.

SCRINTEX LIMITED

Dr. Harold Siegel,
222 Snidercroft Rd.,
Concord, Ont.

Activity

Srintex Limited is engaged in various activities. It provides geophysical services for mineral explorations; manufactures electrical and electronic products, geophysical and audio instrumentation in Toronto and Buffalo; is consulted by governmental agencies and mining companies for information on scientific mineral explorations; and is also involved in research on earth sciences and audio.

Requirements

Geophysics (B,M,D)(S)
Engineering: Electrical (B,M,D)(S)

General Information

Recruits year-round. A knowledge of English is mandatory; French and Spanish are an asset. The Company's Canadian offices are located in Toronto and Vancouver. A newly-hired graduate can conceivably be located in Salt Lake City, U.S.A. and Sydney, Australia. The company has a summer employment program.

SCOTT PAPER LIMITED

Mr. W. Michael Ferrie, Assistant Vice-President, Director of Personnel,
P.O. Box 760,
New Westminster, B.C.
(604)522-5711

Activity

VANCOUVER COMMUNITY COLLEGE,

REGIONAL OFFICES

Dr. T.J. Gilligan, Principal

75 ouest, rue Hastings

Vancouver (Colombie-Britannique)

V6B 1N2

(604)688-1111

Activités

Le Collège de Vancouver est un établissement mixte à plusieurs campus qui offre des programmes d'enseignement postsecondaire d'une à quatre années, ainsi que divers programmes de perfectionnement en rapport avec des disciplines scolaires et le recyclage professionnel. L'enseignement se donne dans les centres suivants:

M. J.J. Denholm, Directeur

Langara

100 ouest, 49e Avenue

Vancouver (C.-B.)

On y offre des programmes d'enseignement postsecondaire, général et technique de deux

années.

M. L.B. Monasch, Directeur

Division des programmes spéciaux

1250, rue Oak

Vancouver (C.-B.)

Les programmes offerts comprennent du recyclage scolaire (préparatoires à l'entrée au collège), l'enseignement de l'anglais, des cours rapides spéciaux par le ministère de la

Main-d'oeuvre.

M. R.C. Mayor, Directeur

Vancouver School of Art

249, rue Dunsmuir

Vancouver (C.-B.)

L'école offre des programmes postsecondaires de quatre ans en arts visuels.

M. J.L. McInnis, Directeur

Vancouver Vocational Institute

(Institut d'enseignement professionnel

de Vancouver)

250 ouest, rue Pender

Vancouver (C.-B.)

L'Institut offre des programmes postsecondaires allant jusqu'à deux années d'enseignement professionnel et technique, d'enseignement du commerce et des métiers de l'industrie des services.

M. A.H. Glenesk, Directeur

Community Education Services

675 ouest, rue Hastings

15e étage

Vancouver (C.-B.)

Une variété de cours rapides sont offerts aux étudiants adultes: enseignement général, enseignement du commerce, d'une profession, d'une technique, des arts et cours d'intérêt général. Les Services d'éducation communautaire offrent surtout des cours du soir.

Les membres du personnel peuvent travailler à acquérir une maîtrise ès arts ou un doctorat en philosophie à une autre université.

ROYAL ROADS MILITARY COLLEGE

Monsieur E.S. Graham

Principal
Victoria (Colombie-Britannique)
(604) 388-1626

Activités

Le collège militaire Royal Roads est l'un des trois collèges militaires canadiens qui forment une « Université de défense » offrant des diplômes en ès-Lettres, ès-Sciences et en Génie. Le Collège n'offre à l'heure actuelle que les deux premières années du programme universitaire complet. Les fonctions des enseignants sont identiques à celles des enseignants des autres universités du Canada; elles consistent à enseigner, à faire de la recherche et à participer aux comités habituels en vue d'étayer la politique du Collège. La masse des étudiants se compose de cadets qui se sont engagés dans les Forces armées canadiennes. Un petit nombre d'entre eux payent leurs études et ne sont pas obligés de servir dans les Forces armées après l'obtention de leur diplôme. Les modalités d'emploi de la faculté sont identiques à celles en vigueur dans la plupart des universités canadiennes.

Le district scolaire no 1438 de North Battfleford dessert les élèves de la maternelle jusqu'à la 9e année. Six écoles donnent des cours allant de la maternelle à la 6e année et il y a une grande école secondaire junior. On y trouve également trois salles auxiliaires et un programme d'enseignement coopératif et de formation au travail. Il y a également une école pour l'enfance exceptionnelle. Le Collegiate Institute Board no 12 dirige une école secondaire polyvalente ouverte récemment et comprenant l'enseignement classique, technique et professionnel de la 10e à la 12e année. Un programme assez élaboré de vocation des adultes est actuellement en voie d'organisation.

Leigh Instruments Ltd. est une société publique canadienne. Elle offre à de nombreux marchés diversifiés, partout dans le monde, des services et des appareils électroniques dont elle garde l'exclusivité. Elle se doit rapidement de structures multinationales et a de nombreuses filiales dont elle est l'unique propriétaire. Leigh est une entreprise de technologie avancée qui tient à réinvestir chaque année une grande partie de ses bénéfices dans les programmes de recherche et de développement afin de conserver sa pondérance technique tout en s'assurant une croissance continue. Elle emploie des ingénieurs et du personnel de soutien chargés de concevoir et de mettre au point des instruments et des systèmes électroniques dont les principaux sont les suivants: enregistreurs de locomotives diesel; systèmes de contrôle du trafic aérien; enregistreurs de poste de pilotage; enregistreurs de données de vol; altimètres; appareils de radio-guidage d'urgence; indicateurs de position d'avions accidentés; systèmes de traçage de courbes de sonar; transpondeurs de compas.

JOY MANUFACTURING CO. (CANADA)

LIMITED

Monseigneur G.L. Robertson

Gérant des relations industrielles et du

personnel au Canada

Cas postale 100

Cambridge (Ontario) N1R 5T4

(519) 623-1550

Activités

La Joy Manufacturing Company (qui porte le

nom de son fondateur, feu Joseph F. Joy) est

un des plus importants concepteurs et fabri-

cants de matériel industriel diversifié. Étroite-

ment associée au secteur de l'énergie, la société

fut le pionnier de la mécanisation des mines de

charbon, et est aujourd'hui un des plus impor-

taants fournisseurs de matériel minier à haute

production. Elle fabrique l'équipement d'explo-

ration et de production de l'industrie du gaz et

du pétrole. Son matériel d'exploitation des mi-

nières, et ses systèmes de traitement du mine-

rai servent à la production de l'uranium, source

d'énergie nucléaire. Les systèmes de lutte con-

tre la pollution atmosphérique mis au point par

la société sont utilisés dans les centrales électri-

ques. La société possède 16 usines aux États-

Unis et neuf à l'étranger. Elle a créé récemment

à Cambridge (Ontario) l'Advanced Develop-

ment Center (Centre de technique de pointe)

destiné à étudier et à concevoir des nouveaux

systèmes d'extraction des roches dures. Les

produits de la société sont vendus dans prati-

quement tous les pays ouverts au marché amé-

ricain, et environ le tiers de ses ventes sont ef-

fectuées à l'étranger. Des 10,300 employés de

Joy, le quart environ travaillent à l'extérieur

des États-Unis. Le siège social de la société se

trouve à l'Édifice Henry W. Oliver, Pittsburg,

Pa. 15222. La société canadienne est située à

Galt (Ontario) où l'on effectue des travaux de

fabrification, de recherche et de développement.

D'autres succursales canadiennes ont été créées

à North Bay, Winnipeg, Montréal et Toronto.

Joy emploie plus de 800 personnes au Canada.

THE INTERNATIONAL NICKEL

Mademoiselle J. Moore
Surveillance du recrutement et des bénéfices

Case Postale 44
Toronto (Ontario) MSK 1E3
(416) 362-6311

Activités

La International Nickel Company of Canada, Limited est la plus grande producteur de nickel au monde. La compagnie produit également du cuivre, et d'autres métaux dans la même catégorie que la platine. D'autres sous-produits incluent le minerai de fer, le cobalt, l'or, l'argent, le selenium, tellurium et le soufre. Mis sur pied en 1902, Inco, comme son nom l'indique, est international. Sa structure présente reflète son expansion plusieurs années passées dans le Canada, les Etats-Unis et dans le Commonwealth. Elle a des bureaux exécutifs à Toronto. Ses deux grandes filiales — The International Nickel Company, Inc., dans les Etats-Unis et International Nickel Limited dans le Commonwealth — dirigent les ventes de nickel, les produits de recherches et les activités de développement du marché et produisent et vendent des produits de laminoir dans leurs régions. Il y a d'autres petites filiales qui sont engagées dans l'exploration et dans le développement de nouvelles ressources. La compagnie emploie plus de 32,000 personnes à travers le monde. Environ 23,000 travaillent dans les mines, les usines, les bureaux et centres de recherches dans le Canada. Dans le moment présent la compagnie a 16 mines en opération, dont 13 en Ontario et 3 dans le Manitoba. Inco est à développer des projets dans l'Indonésie et le Guatemala.

HÔPITAL PSYCHIATRIQUE DE LONDON
Monsieur Edward C. Likeness, Agent du personnel
Case postale 2532, station «A»
London (Ontario) N6A 4H1
(519) 455-5110

Activités
L'Hôpital psychiatrique de London est un établissement pluridisciplinaire qui comporte 500 lits; affilié à l'Université Western Ontario, il offre une large gamme de services sociaux comprenant des soins internes et externes, des garderies de jour et des services de consultation aux organismes régionaux.

Le service interne «en équipe» comprend le diagnostic, le traitement intensif et des soins à long-terme pour un groupe de malades mentaux divers, âgés de plus de 16 ans. On emploie dans cet hôpital les méthodes classiques de psychiatrie, à l'aide de systèmes électroniques complexes, d'ordinateurs et d'un laboratoire de psychologie muni d'un système de télévision en circuit fermé.

Le service externe qui représente la majeure partie du travail de l'hôpital, consiste à établir les diagnostics, à traiter le malade ou à l'emmener chez un spécialiste compétent, enfin à offrir un traitement de contrôle. Une étroite collaboration entre le personnel de l'hôpital et les organismes de consultation est essentielle au traitement médical tel qu'on le conçoit dans cet hôpital.

En plus des programmes de soins psychiatriques généraux qu'offrent les quatre sections pluridisciplinaires, il existe des programmes spéciaux pour les enfants, les adolescents, les intoxiqués et les problèmes judiciaires en voie de développement. Étant un hôpital d'enseignement de l'Université Western, le personnel est encouragé à faire de son mieux pour donner l'exemple durant la formation des étudiants en médecine, psychiatrie, psychologie, soins infirmiers, bien-être social et moral et ergothérapie.

membres pour 23,038 élèves.

CONSEIL NATIONAL DE RECHERCHES

DU CANADA

Monsieur R.T. Shuttlesworth, Bureau d'emploi

et du perfectionnement

Chemini Montréal

Ottawa (Ontario) K1A 0R6

(613) 993-9134

Le Conseil national de recherches du Canada

(CNRC) encourage, appuie et conduit des recherches afin de créer un nouveau savoir scientifique et de l'appliquer à la science et au génie.

Le CNRC établit également un lien entre les intérêts scientifiques du gouvernement, de l'industrie et des universités canadiennes.

Candidats Recherchés

Biologie, biochimie, biophysique, chimie,

sciences de l'ordinateur, physique (M,D),

Génie: mathématiques (E)

industriel, mécanique, métallurgique,

physique, et sciences du génie (B,M,D)(E),

Architecture (B,M,D)(E), bibliothéconomie

(B,M,D)(E), gestion des affaires (E)

Arts (toutes disciplines) (B,M)

Renseignements généraux

Le recrutement se fait toute l'année. Brochures

personnes de langue anglaise, française et bilingues.

La plupart des postes sont offerts à Ottawa;

un nombre limité est disponible à Halifax,

Saskatoon, Penitence et Victoria. Le programme

d'emplois d'été s'applique à tous ces

endroits.

Cas Postale 69

Montréal (Québec) H3C 2R5

Activités

Consolidated-Bathurst Limited exploite huit

usines de pâte et papier et quelque vingt-sept

autres fabriques au Canada, ainsi que trois

autres fabriques de carton et neuf fabriques d'emballa-

ges en Allemagne de l'ouest. La compagnie est

COMPAGNIE D'ASSURANCE-VIE, LA MÉTROPOLITAINE
 Monsieur Peter A. Davies, Directeur
 Services de commercialisation et de formation
 180, rue Wellington
 Ottawa (Ontario) K1P 5A3
 (613) 231-3507
Activités
 La Métropolitaine a son siège social à Ottawa et des bureaux régionaux partout au Canada. Elle vend de l'assurance-vie et des rentes et assure plus de 47,000,000 de personnes au Canada et aux États-Unis, soit une personne sur cinq.

Candidats Recherchés
 Commerce et administration des affaires (B.M.),
 Arts (toutes disciplines) (B-G-S),
 Sciences sociales (toutes disciplines) (B-G-S),
 Sciences (toutes disciplines) (B-G-S).

Renseignements généraux
 Le recrutement se fait à l'année longue. On peut se procurer de la documentation traitant du recrutement. Le personnel doit parler le français ou l'anglais. Elle a besoin de représentants de ventes dans la plupart des régions du Canada. Le travail de représentant de ventes consiste à déterminer les besoins du client en matière d'assurances, à établir un régime d'assurance pour y répondre et à lui vendre ce régime sous forme d'assurance-vie ou de rentes. La Métropolitaine a un programme de formation à la vente fondé sur des études personnelles intensives; par ailleurs, les représentants de ventes reçoivent une formation en cours d'emploi afin d'acquérir les connaissances requises pour devenir des assureurs-vie indépendants et auto-nomes. Les bons représentants de ventes peuvent accéder rapidement à la gestion des ventes et y faire carrière.

COMPAGNIE D'ASSURANCE-VIE, LA

LA COMPAGNIE D'ASSURANCE-VIE NORTH AMERICAN LIFE
 Monsieur J.G. Webb, Directeur du personnel
 Monsieur H.D. Case, C.T.U.

Renseignements généraux
La Commission de la Fonction publique du Canada est l'organisme de dotation en personnel de la Fonction publique du Canada, l'employeur le plus important du pays qui offre la plus grande variété d'emplois.

La Commission de la Fonction publique par son pied un programme de recrutement postsecondaire dont la responsabilité est la planification de la campagne de recrutement dans les

CEGEPs, les collèges communautaires et les instituts de technologie.

Des postes stimulants en administration et en technologie sont disponibles pour femmes et hommes dans la plupart des ministères et agences gouvernementales.

Il y a une demande constante pour des diplômés en administration financière, en gestion d'affaires, en statistique et en technique électronique. En ce qui a trait à la disponibilité d'étudiants d'autres spécialisations, tout dépendra de la demande dans les différentes régions.

La promotion à l'intérieur de la Fonction publique du Canada dépendra des capacités professionnelles de l'individu, du poste à combler et de sa carrière.

Une carrière à la Fonction publique présente beaucoup d'avantages. Par exemple, les congés de vacances et de maladies et les différents plans d'assurance et de pensions.

Pour obtenir de plus amples renseignements au sujet des emplois disponibles au sein de la Fonction publique pour les diplômés collégiaux, veuillez visiter votre bureau de placement sur campus ou écrire au bureau régional de la Commission de la Fonction publique le plus rapproché.

La compagnie dirige un centre de fabrication très moderne et joue un rôle de pionnier et de novateur dans la fabrication de précision d'alliages modernes très robustes et d'alliages résistants à la corrosion et aux fortes températures. Elle se consacre particulièrement à la construction des gros organes soudés de réacteurs destinés aux principaux fabricants de moteurs de turbines à gaz. En outre, la compagnie Bristol, de pair avec la fabrication de ces alliages spécialisés, étudie et fabrique du matériel de recherche nucléaire. Elle s'occupe également de la création et de la fabrication d'éléments bobinés et de pièces en plastique renforcées: bacs pressurisés, ogives de fusées, et autres structures utilisées dans la navigation aérienne, sous-marine ou terrestre ainsi que dans divers projets expérimentaux.

Outre ses activités de construction, la compagnie Bristol, soit pour l'armée, soit pour des sociétés privées, se charge d'inspecter, de remettre en état ou de modifier des aéronefs de tous genres, partant des avions de chasse supersoniques jusqu'aux hélicoptères en passant par différents appareils civils. Toujours dans ce domaine, la compagnie fabrique du matériel auxiliaire: les patins rétractables conçus par Bristol pour l'hiver et les conditions polaires, les flotteurs d'hydravion permettant l'atterrissage sur l'eau et divers éléments visant à améliorer les performances des machines.

Les divisions techniques qui aident les services du matériel s'occupent des nombreux aspects des installations-aéronefs; instruments électriques, de radio, hydro-mécanique, ainsi que des analyses de structure et du montage des aéronefs.

La conception et l'élaboration des fusées «Black Brant» et de véhicules spatiaux destinés à l'exploration des couches supérieures de l'atmosphère constituent l'une des activités principales de la compagnie et nécessitent une technologie particulièrement avancée dans tous les domaines.

Dans les principaux services chargés de la conception, de la production, de l'équipement en instruments et du lancement des véhicules, des

La Banque Royale du Canada est l'une des plus grandes banques du monde avec au-delà de 1,500 succursales au Canada et à l'étranger. Grâce à l'ampleur de ses activités commerciales à travers le monde et à une gamme de services financiers de plus en plus diversifiée, la Banque Royale est en mesure d'offrir un large éventail de débouchés intéressants. La Banque étudiera les demandes des candidats qui ont fait des études universitaires, autres que celles précises, en tenant compte de leurs qualifications et de leurs intérêts envers une carrière à la Banque. La Banque Royale recrute dans le pays, selon ses besoins, principalement des étudiants sur le point d'obtenir un baccalauréat et qui, par la suite, s'engagent à suivre un programme accéléré de perfectionnement de formation.

Chaque diplômé d'université a la possibilité de mettre sa compétence et ses talents au service de la société canadienne.

Le présent annuaire, où figure bon nombre des plus importants employeurs de nouveaux diplômés d'université, est conçu de façon à faciliter la recherche de l'employeur qui vous offrira les meilleures possibilités d'utiliser au maximum vos talents et votre compétence.

Pour beaucoup d'entre vous, il s'agira de votre premier emploi permanent à plein temps. J'espère que cette nouvelle étape importante de votre vie sera pour vous une expérience enrichissante qui vous conduira à une carrière intéressante et contribuera au développement de notre pays.

ROBERT ANDRAS

OTTAWA
1975

COMMENT UTILISER L'ANNUAIRE

L'annuaire contient trois sections principales; une section narrative, une série d'index (recoupement) servant de guide à la liste des employeurs et une liste alphabétique des employeurs canadiens. Chaque inscription de la liste alphabétique renferme le nom d'un employeur, son adresse, le nom du responsable du recrutement des diplômés, et une brève description de l'employeur. Nous avons utilisé un format standard pour toutes les descriptions d'employeurs. Chaque description contient trois rubriques principales, à part le nom et l'adresse de l'employeur: "Activités," "Candidats recherchés" et "Renseignements généraux." "Activités" décrit ce que fait l'employeur, "Candidats recherchés" donne une liste des domaines d'études et des niveaux de diplôme exigés des candidats éventuels, et "Renseignements généraux" contient les autres renseignements pertinents. Autant que possible, les seules abréviations utilisées ont été "B," "B-S," "M," "D" et "E" signifiant respectivement, baccalauréat, baccalauréat-général, maîtrise, doctorat avec spécialisation, maîtrise, doctorat et emploi d'été. Cependant, quelques phrases types utilisées tout au long de l'annuaire peuvent exiger des précisions.

L'orsqu'on parle d'emploi d'été, on ne parle que de travail dans une discipline connexe aux études du candidat. L'employeur peut engager des étudiants en vacances pour travailler dans d'autres secteurs, mais cela ne peut être établi à partir des renseignements contenus dans l'annuaire. Les références aux exigences linguistiques d'un employeur n'ont pas trait à la langue maternelle du candidat. Quand il est dit que l'employeur veut du "personnel de langue française" ou du "personnel de langue anglaise," cela ne veut pas dire ou laisser supposer que la langue maternelle du candidat doit être l'anglais ou le français. L'index des employeurs est recoupé de trois façons: 1) selon la nature de l'entreprise; 2) selon la discipline et le diplôme exigé; 3) selon la ville et la province. Si vous connaissez le nom d'un employeur à qui vous désirez présenter une demande d'emploi, vous n'avez qu'à chercher son nom dans la liste alphabétique. Cependant, si vous vous intéressez à n'importe quel employeur qui veut engager des diplômés dans votre domaine d'études, ou à un employeur dans un genre particulier de travail, ou à une ville en particulier, vous pouvez alors consulter l'index (recoupement). Le détail des recoupements est consigné à la table des matières, à la page ii.
